PCB81-V430

REVISED TECHNICAL PARAMETERS

Combine 4MP parking detection, voice and optional lock-control functions in a slim Diameter 110 x 80mm body for car parks with limited ceiling clearance.

Parameter	Specification
Model variants	PCB81-V4303 / PCB81-V4306
Parking spaces	3 (single-lens) / 6 (dual-lens)
Image sensor	4MP
AI computing power	1 TOPS
Dimensions	Diameter 110 x 80mm
Power supply	DC 8-26V

Source: manufacturer product specification and confirmed current product master data. This parameter sheet supersedes the inconsistent power field in the previous English datasheet.

Configuration: three-space and six-space variants have different external indicator interfaces. Peripheral modules and power options depend on the ordered configuration.
